RE: Aquinas Football

You are concluding the chapter of your life known as Middle School. Enjoy every second of it. You will soon be taking the next big step on your journey through life as you enter Aquinas High School. One of the great things about your high school experience will be the friends you make and the relationships you form. There is a special kinship teammates have with one another. I am a proud Aquinas graduate of the Class of 1990. Many of my teammates remain some of my closest friends decades later. I invite you to be a part of our proud tradition of Blugold Football so you can challenge yourself through competition, make memories, learn what it means to sacrifice yourself for a greater cause, and, of course, create life-long friendships.

There are many opportunities for you as part of our football program.

Program Organization Information:

All levels of football will practice together at the same time. Our practices are split between the Varsity & JV with each level working with our staff on specific phases of the game. We keep players together based on physical maturity, skill-level and experience. We *never* put athletes in a player vs. player situation in practice where they are outmatched. There will be a lower level schedule for JV as well as "C-level" games where we develop our players. In JV & C games, every player in uniform will play in every quarter.
